UNION PAPER PREDICTS VIOLENCE WILL FOLLOW

Arrival of Soldiers From the Coast.

Special to The Tribune. GOLDFIELD, Nev., Dec. 7 Tranquility reigns in the Gold field district tonight. Uncle Sam's soldiers to the number of about 300 are here. One detach ment is camped near the ole depot, the other in the center of the mines east of town. Colon molds will not declare mar tial law unless there be violence no indication of which has ye appeared. A machine gun plateon with two Nordenfeldt Maxim gans constituted the only teld pieces of the troops. These will probably be planted on Columbia Mountain, overlooking the

city.

Some of the miners of the district do not take kindly to the troops, yet they are apparently willing to let them alone. A long telegram was sent the Governer tonight by representative people, congratulating him on sending the military to this camp. The stock market feels the effect already. The Standard Goldfield scentifies jumped, led by Consolidated, with an advance of 23 points, and Florence vance of 25 points, and Florence with 35 points rise. This is Eastern and Western buying and is based on the end of labor trouble being in sight.

GOLDFIELD, Nev., Dec. dated Mines company's detective patrol reported tonight that he had saized 100 rifles Sage of the Consolithat had been cached, presuma-bly by the union miners, within a short distance of Goldfield.

This is presumed to be a part of the cache of arms and am-munition which the miners are represented to have collected during the last few days.

GOLDFIELD, Nev., Dec. 7 .- Encourged, doubtless, by the presence of Federal troops in Goldfield, the Goldfield Mine Owners' association held a meeting this afternoon and tonight gave out statement in which it is openly said that the members of the association have decided to make a determined struggle to free Goldfield of union domination and make this an open camp. The statement of the purpose of the nine owners is direct and unequivocal, and throwns down the gauntlet to the Western Federation of Miners, Offiters of the association refused to say if any steps have already been taken toward importing non-union miners in sufficient numbers to reopen the mines, which are now idle and rapidly filling with water, but stated that many tele grams are being received hourly offering men, and that within forty-eight iours the mines could be opened with the same number of men as were for-merly at work in them. One concern in San Francisco, it is stated, offered to send a thousand men on one hour's

Expect Quick Resumption.

The officers of the association say, however, that in their belief, there are enough men in the camp who will leave the union now to make the importation of men unnecessary, and they are look-ing for these men to make application carly in the coming week. It is im-possible, the operators say, for them to get enough men in the mines at present to operate the pumps and keep them clear of water. Cave-ins are constantly taking place and other damage is being wrought by reason of the inactivity No unusual excitement was caused by the arrival of the first detachment of troops, and the crowds that gathered at the depot quickly dispersed after the troops had marched to the Mesa, in the northwestern part of the city. they have gone in temporary encamp-ment. Tonight Goldfield is quiet and there are no indications of impending

Precautionary Measure

Captain William Cox, a member of Governor Sparks's staff, and the per-sonal representative of the Governor, is sonal representative of the Governor, is in Goldfield tonight in conference with Colonel Revnolds. He states that Governor Sparks's action in requesting that troops be sent to Goldfield was merely a precautionary measure, and not based on any overt acts of the union mon. He refused to say tonight whether Colonel Revnolds would be asked by the Governor to station men at er near the senior to station men at or near the mines in case the owners decide to make wa effort to start up the mines with non-pulon men. Colonel Reynolds refused to say whether he would take such ac

clock this morning said that Mrs Thomas Vance, who is alleged to have been brutally assaulted and afterward poisoned by her husband Thanksgiving day, was dying and could not live through the night.

Mrs. Vance began to sink slowly Friday. Saturday her decline was rapid. Saturday evening she passed into a comatose state and later became unconscious, life slowly obbing away.

Dr. A. A. Kerr, the attending physician, said Saturday night late that her decline was due to bromide of mercury poisoning. Saturday he analyzed some tablets found in Vance's trunk and found they were composed of bromide of mercury. Mrs. Vance, in an anto mortem statement, charged that her husband entered her room, after dealing her terrible punishment by kicking and heating, and dropped something into a glass of water from which she afterward drank and became deathly sick. She said she drank from the same glass several times before and suffered no ill effects.

Vance is being held prisoner in the county jail, to which he was transferred from the city jail Saturday, on a charge of assault with intent to murder. The charge will be raised to first-degree murder in the event of Mrs. Vance's death. Saturday evening she passed into a

ATTACK ON GOLD-LUST

NEW YORK, Dec 7.—"The lust for gold and the hunger for power have ridden rough-shod over liberty and love and law and hung their banners over every capital and every mart. The lingle of gold sounds even in the laughter of modera society, and the eyes of the church are jaundiced with it. We have become a nation of gold-worshipers. I fear that if the American people, in their present spirit, were transplanted to the heaven above they would tear up the golden streets in three hours and levy a tax on the harps of the angels for the benefit of American industry."

"You have got to come to the South for conservatism and for pure American blood to save the Republic."

To begin with when President Samuel Blythe lit up the huge electric gridiron in the spacious and sampluously appointed banquet hall of the Willard hotel, the absence of the preliminary cocktail was omplasized. Vice-President Fairbanks bore the brunt of this stinit, for in front of him stepped a Gridironer who sang a ditry about an Indiana dinner where cocktails were served, with subsequent regrets. Mr. Fairbanks was then allowed a ration of butternilk.

DEATH LIST GROWS IN GREAT MINE HORROR

Now Estimated That Victims Will Exceed Five Hundred: Few Bodies Recovered.

MONONGAH, W. Va., Dec. 7 .- Twenty-nine hodies had been brought to the surface up to 12:30 o'clock this morning, and word comes from the rescuing party that many others are ready to be brought out from the mines of the Fairmont Coal company.

Late today and tonight the deadly blackdamp became more pronounced as the further recesses of the mines were approached. It was stated tonight by General Manager Leo L. Malone that 478 actual miners were checked off as entering the mines yesterday morning This number, it was further stated, did not include fully 100 trappers, mule drivers, pumpers and boys who are not under the check system. Should these figures be correct, the death list will be

over 550 persons. Bodies Mutilated

The condition of the bodies thus far recovered is horrible. Many are dis-membered, some are fearfully crushed and the rest are blackened and burned beyond recognition.

A score or more of men of the res-

cuing parties are in a critical condition tonight from inbaling blackdamp. Several of them are expected to die. Up to late today many entertained high hopes that some of the entembed men would be taken from the mines alive. As the bodies recovered today,

however, were brought to the surface horribly mangled, all hope was dispelled, and distressing scenes followed. It is estimated that 250 families are destitute. In many places relief funds have already been started for the widows and children. The accident, the greatest in the history of American mining, has dazed the people. Tonight the ing, has dazed the people. Tonight the ing, has dazed the people. CITY OF NEW YORK or Entertainment Will Be Strictly Prohibited.

LITERAL ENFORCEMENT OF LONG-DISREGARDED STATUTE

Symphony Concerts at Carnegie Thousands Gather Before Pal-Hall and Y. M. C. A. Programmes Barred.

NEW YORK, Dec. 7 .- A "blue Sunday" is promised New York tomorrow. A literal suforcement of an old but not seriously regarded statute under a new interpretation will deprive New York's millions of any form of public entertainment for twenty-four hours at least and perhaps for many other Sundays to come. Orders for a strict enforcement of Justice O'Gorman's recent decision in regard to the closing of all places of amusement on the Sabbath were is-sued today by Police Commissioner

Commissioner Bingham's orders to eighteen inspectors call for a rigid en-forcement of the law, and clamps the cover of strict suppression on all forms of amusement, from vaudeville to the Sunday evening entertainments of the Y. M. C. A. The commissioner in formed the inspectors that the Sunday closing law covers everything, from the symphony concerts at Carnegie hall to the 5-cent vaudeville shows, and that any attempt to evade the statute must be met with arrest

Brooklyn Privileged. Theatrical managers and showmen stated today that they propose to obey the mandate of the law, believing, they say, that its strict enforcement will do more than anything else to effect its modification or repeal at the coming session of the Legislature. The managers of five moving picture shows and a skating rink have secured temporary injunctions restraining the police from interfering with them tomorrow, and Commissioner Bingham told the Brooklyn inspector that the injunctions must be obeyed.

Commissioner Bingham, in delivering his instructions, said the closing order prohibited everything in the way of a performance or entertainment and that the rule extended to dancing academies and to dance halls. The commissioner said to the inspectors:

Makes No Distinction.

Makes No Distinction.

"Now that order and that decision "Now that order and that decision means simply the stopping of any public entertainment or performance of any character in a place of amusement on Sunday. All performances of any character in a place of public amusement is the way the decision reads. Now that covers Carnegie Hall as well as the one and five-cent vandeville and moving picture shows. It covers roller skating and it covers benefits. The Y. M. C. A. and it covers benefits. The Y. M. C. It cuts out the educational alliance with their little arrangement that on Sunday nights, because it is a place of public amusement.

Commissioner Bingham said the music in hotels and restaurants was not to be disturbed. He said that the law was to be enforced on the outskirts of the city, where it has been the custom to play football and other outdoor games. The six-day bicycle race, which was scheduled to start at midnight tomorrow, will not commence until 1 o'clock, and the doors of Madison Square Garden will not open until after
